

Marine Renewables Canada Social Media Kit

Thank you for helping raise awareness of Canada's growing marine renewable energy sector. Whether you're an MRC member, partner, speaker, sponsor, government representative, researcher, or supporter, we've made it easy to share trusted information about offshore wind, tidal, wave, and river current energy.

Together, we can help build awareness of one of Canada's greatest clean energy opportunities.

Sector Vision 2050 social media campaign

To support the launch of MRC's Sector Vision 2050, we've created a collection of ready-to-use social media graphics highlighting key messages about Canada's marine renewable energy sector. [Browse and download the campaign visuals here](#). Suggested social media copy is included in the description of each visual.

Event photos
